

# **Loft/Lie Adjustment**

## **Waiver**

Please be advised that the process of adjusting the loft/lie of a club requires that large forces be applied to the club head. Under some circumstances, this may cause breakage. It is not recommended that any club head be bent more than 2 degrees in any direction.

I waive any claims regarding damage to my product, If I do not report it at the time of pick up.

I waive any consequential or incidental damages against Golf Medic that may occur as a result of the Loft/Lie Adjustment.
